TUBELITE®

DEPENDABLE

LEADERS IN ECO-EFFICIENT STOREFRONT,
CURTAINWALL AND ENTRANCE SYSTEMS

Date: **08/24/2011**

Engineering Bulletin: **081110**

Effective Date: **09/12/2011**

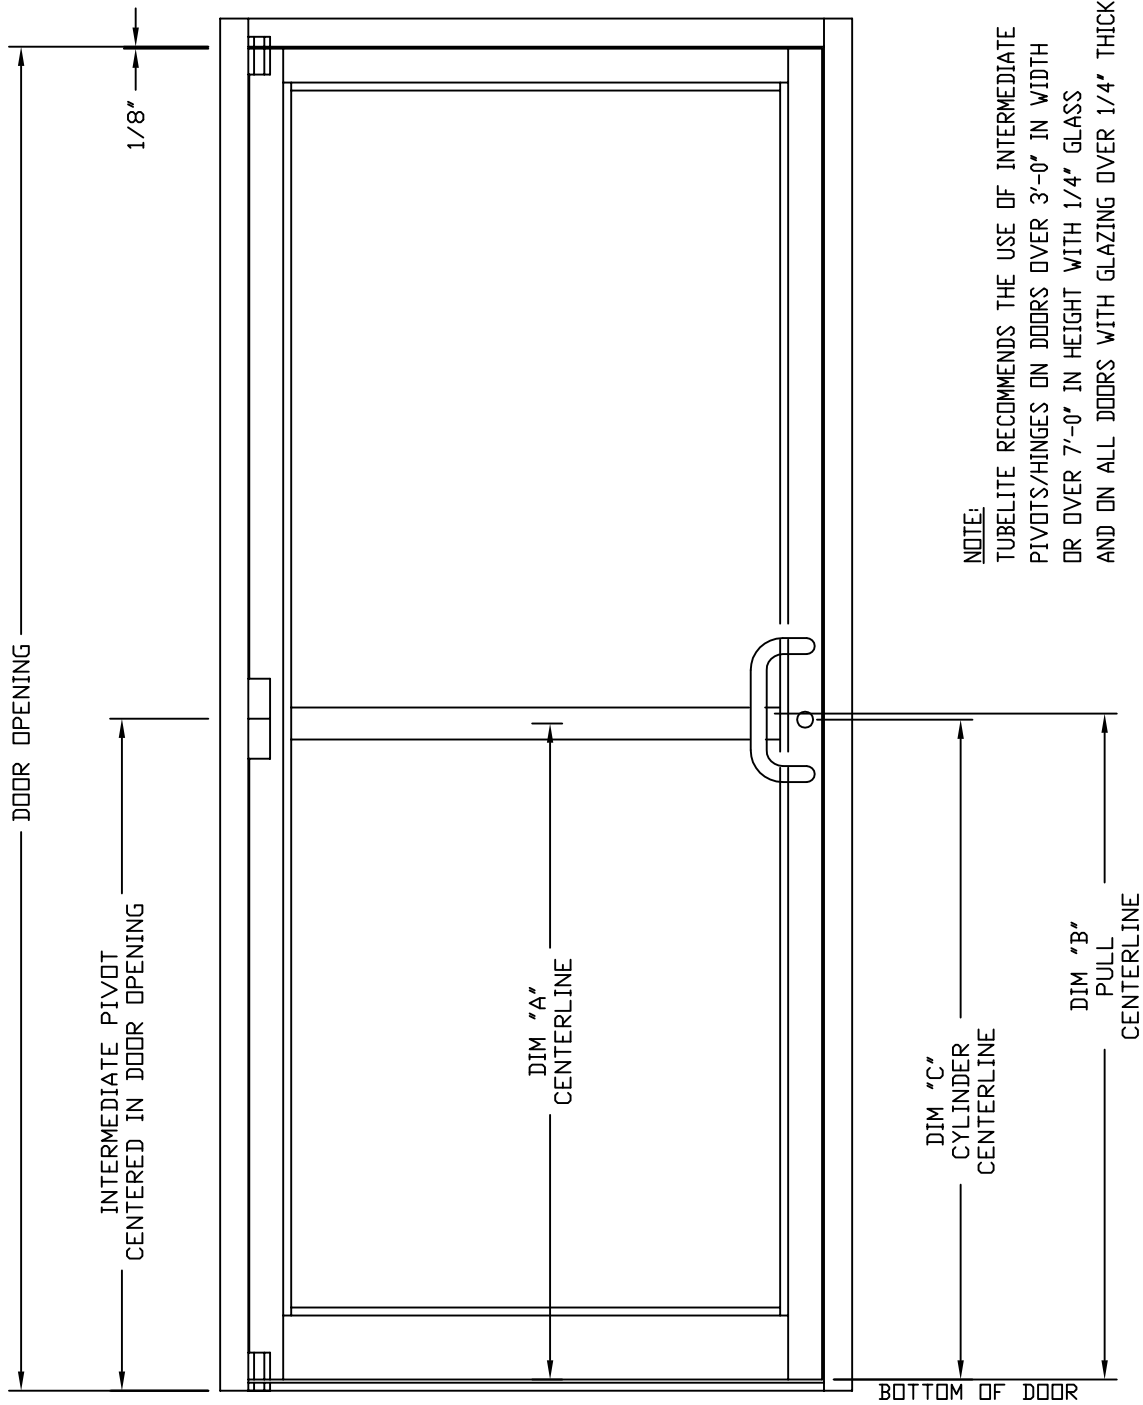

Released By: **Tram Trinh**

Subject: **Pull handle for exit devices location change**

Description: Tubelite will move the location of the pull handle centerline on Panic exit devices on Rim and CVR option. Any order received on September 12th, 2011 and there after will have the new handle location. This will allow the cylinder to be more centered with the pull handle and easier access to lock and unlock. Please see next page for the new pull centerline location.

2.24 Standard Entrances Panic Exit Device Locations
