Subject: **P695 Offset Pivots**

Description: New part numbers P695D, P695E, and P 695L will replace the current parts P695B and P695C respectively. Tooling modification was made to these offset pivots adding shoulders to help locate and align pivots during installation.

When replacing old parts with new, installers will need to increase the hole locating size to a diameter of .427 inches.
